

CHILEAN SALMON OIL

PRODUCTION PROCESS

Chilean salmon oil is produced from fresh, salmon trimmings/by-products in factories with high technical and hygienic conditions. The oil is unrefined with a fresh and characteristic odour.

SPECIFICATIONS	MIN	TYPICAL	MAX
Free fatty acids		3,0 %	5,0 %
Moisture + impurities			1,0 %
Totox (anisidine + 2 x peroxide)		15	35
Antioxidant	150 - 200 ppm BHT added at shipment		
Contaminants	EU limits		

APPLICATIONS

Chilean Salmon Oil is recommended used in feed for fish feed and pet food.

EXAMPLE OF FATTY ACID PROFILE 2014		AMOUNT
C14		1,9 %
C16		11,4 %
C16:1		3,1 %
C18		3,7 %
C18:1		37,7 %
C18:2		18,2 %
C18:3		5,3 %
C20:1		1,9 %
C20:5		3,0 %
C22:5		1,5 %
C22:6		4,0 %
